Exhibitions:

- [The Tudors: Art and Majesty in Renaissance England](#)

This links to the exhibition at the met museum

Navigate to [exhibition objects](#) to find the art pieces in the exhibition, and select 2 items for each of the arts categories we have (painting, sculpture/statue, other)

- [Cubism and the Trompe l'Oeil Tradition](#)

Mainly paintings in this exhibition with some random sculptures

Navigate to [exhibition objects](#) to find the art pieces in the exhibition, and select few items for each of the arts categories we have (painting, sculpture/statue, other). Since this is mainly paintings, select more paintings that cover the different types of paintings stated in the handout (oil on canvas, oil on paper, etc ….)

- [Hear Me Now: The Black Potters of Old Edgefield, South Carolina](#)

This is mainly a pottery exhibition (most art will fall under the other category).

Navigate to [exhibition objects](#) to find the art pieces in the exhibition, and select few items for each of the arts categories we have (painting, sculpture/statue, other). Since this is mainly paintings, select more paintings that cover the different types of paintings stated in the handout (oil on canvas, oil on paper, etc ….)

Collection owner ship

All art objects fetched from the above exhibition links will be assumed to be owned art

For the borrowed art objects, navigate to [the louvre collections page](#) and scroll down to the *"themed albums"*, these will provide the collection information for the database (do not copy the full description, just a simplified description). Select 2 collections to provide a total of 6 art objects combined to be added to the borrowed arts objects

Note

Any missing information from that you will need for the database that is not found on the provided links can be assumed any value. These samples server as data that you can use to populate the database and test your transactions and we are not concerned with the correctness of the data itself

You can use any other collections and datasets you find online if you wish to, there are no restrictions on the data to use to populate your database
